

**Vitax Rose Food is a top quality rose fertiliser containing the three major plant foods – nitrogen, phosphate and potash – together with iron and magnesium to ensure healthy green leaves and abundant blooms.**

## DIRECTIONS FOR USE

### Established Roses

Apply 55g (2 oz) evenly around the base of the plant in early Spring, keeping off stems and leaves, and hoe in lightly. Water if the soil is dry. Repeat application during the summer prior to a second flush of blooms.

### Established Beds

Apply 135g/m<sup>2</sup> (4 oz/sq yd) in early Spring, then top dress with 70g/m<sup>2</sup> (2 oz/sq yd) in late May and early July.

### New Roses

Mix 55g (2 oz) with the bottom soil, ensuring the hole dug is both deep enough and wide enough to allow the roots to spread out evenly. The bud union should be 2.5cm (1") below soil level when planting is completed.

## HELPFUL HINTS

Read the directions carefully before use.  
Store the fertiliser in a dry place away from children, pets and foodstuffs.  
Wash hands after use.  
Avoid fertiliser lodging on the leaves or stems of the plants.

## ANALYSIS

### Compound fertiliser 5.0-5.0-10.0 with Iron UK

Nitrogen (N)	5.0%
Total phosphorus pentoxide (P <sub>2</sub> O <sub>5</sub> )	5.0% (2.1% P)
of which soluble in water	0.0% (0% P)
Total Potassium Oxide (K <sub>2</sub> O)	10.0% (8.3% K)
Iron (Fe) total	0.6%

### Compound fertiliser 5.0-2.1-8.3 with Iron IRL

Nitrogen (N)	5.0%
Phosphorus (P) soluble in water	0.0%
soluble in mineral acids only	2.1%
Potassium (K) soluble in water	8.3%
Iron (Fe) total	0.6%
