

A ready-to-use formulation containing 0.05 g/L (0.005 % w/w) cypermethrin

INSTRUCTIONS FOR USE

How to use: Spray plants thoroughly, including the underside of the leaves.

When and where to use: A broad spectrum insecticide for the control of insect pests such as aphids and caterpillars on roses and other ornamentals. Do not apply when bees are actively foraging (use early in the morning or late in the evening).

Avoid spray drifting onto polished surfaces, wall finishes and absorbent surfaces.
Application rate - 750ml treats 7.5 to 15m²
Maximum treatments - 2 per year
Minimum 10 days between treatments

SAFETY INSTRUCTIONS Protection during/in use

Do not eat, drink or smoke when using this product.

WASH HANDS AND EXPOSED SKIN AFTER USE.

IF YOU FEEL UNWELL, seek medical advice (show the label where possible).

Environmental protection

Dangerous to bees. To protect bees and pollinating insects do not apply when plants are in flower or when flowering weeds are present. Do not use where bees are actively foraging. Use early in the morning and late in the evening. Do not contaminate water with product or its container.

Direct application away from ponds and other surface water bodies.

Storage and disposal

KEEP AWAY FROM FOOD AND DRINK. KEEP PRODUCT IN ORIGINAL CONTAINER, tightly closed, in a safe place. DO NOT RE-USE THIS CONTAINER FOR ANY PURPOSE.

Risk and Safety Information

Toxic to aquatic life with long lasting effects.

Keep out of reach of children.

Read label before use.

Dispose of contents/container to a household waste recycling centre as hazardous waste except for empty containers which can be disposed of by recycling. Contact your local council for details.

Avoid release to the environment.

Contains 1,2-benzisothiazol-3(2H)-one, glutaraldehyde 50%. May produce an allergic reaction.

To avoid risks to human health and the environment, comply with the instructions for use. MAPP No 16937
